

JOB OPPORTUNITY BULLETIN

CLASSIFICATION: Associate Toxicologist

POSITION NUMBER: 811-165-7941-004

BULLETIN RELEASE DATE: July 24, 2000

FINAL FILING DATE: Until Filled

MONTHLY SALARY: \$\$4,136 - \$5,480

DUTIES/RESPONSIBILITIES: Under the supervision of the Chief (Senior Toxicologist), Water Toxicology Unit, the Associate Toxicologist will prepare and maintain an up-to-date bibliography on every chemical contaminant being evaluated under the Public Health Goals (PHG) program; consult with authors and coordinate with staff of the Occupational and Environmental Health Library; prepare reviews and documents especially in area(s) of expertise; coordinate and prepare the posting to the Web site of a list of chemicals on which OEHHA has initiated risk assessment work under the PHG program; consult with authors and compile the lists of bibliographic data, format, and coordinate with OEHHA webmistress for posting; prepare announcements for website posting and California Regulatory Notice Register submission and coordinate with OEHHA webmistress. The incumbent will serve as the contact person on designated activities that are related to responding to requests for information or assistance received through the OEHHA website as well as from other sources; prepare and send responses to information requests about the PHG program and official dates; forward requests to appropriate persons as needed; document the requests, comments, and suggestions received from outside parties regarding the bibliographies and draft risk assessments developed under the PHG program posted on the OEHHA website.

DESIRABLE EXPERIENCE/QUALIFICATIONS: Knowledge of and experience in general principles of toxicology, with emphasis in environmental and occupational health concerns; laboratory and testing procedures for toxicological investigations; principles and procedures for risk assessment; and identification and quantification of relative hazards from exposure to chemicals in the environment. Possess training and in-depth knowledge in one or more specialized areas in toxicology. Ability to evaluate research studies in the fields of toxicology and pharmacology for application to issues of public health; work cooperatively with department staff and outside agencies; interpret and apply environmental and public health standards; communicate effectively; analyze situations accurately and take effective action; provide technical support in the evaluation and development of programs to implement toxicological practices and procedures on a statewide basis; and function as a specialist in one or more aspects of toxicology.

WHO SHOULD APPLY: State employees currently employed in the above classification, persons with current list, transfer or reinstatement eligibility, and state employees currently identified as surplus or on the SROA list.
